Why Tagout Techniques?

At Tagout Techniques, being anti big-box means putting heart, knowledge, and community first. We're not here to compete with massive chains — we're here to offer something better: personalized service, carefully chosen outdoor gear, and a passion for nature that only a locally owned business can provide. When you shop with us, you're supporting a small business that truly cares about the wild places we all love.

Tagout to WestWind Toggle

Transactional Software

- We are currently researching a plugin that will help build the transactional side of the website
- Online purchasing will not be an option

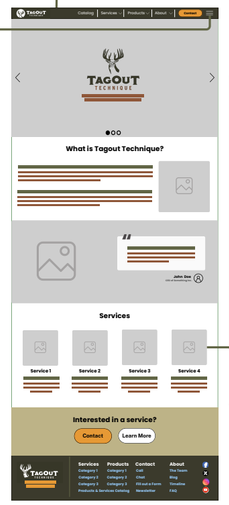

Chat Function

- Present on every page
- Sits in the bottom left hand corner of the screen
- Option unavailable when there is not an employee present

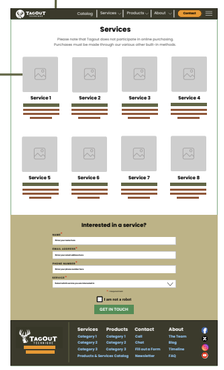

Accessibility Plugin

We are looking into a WordPress plugin that is an accessibility button. When pressed, this button can change the font to something easier to read for dsylexic people or change colors to have more contrast for colorblind people for example.
